English, Vietnamese

Projects

Chopstix – Lead UI Designer, UX Researcher

September 2020 - March 2021

- Created an original app concept catered towards combining Asian cuisine food reviews and a social platform. Led the design, research, and evaluation.
- Created sketches, personas, wireframes, hi-fidelity mockups, and prototypes. Implemented solutions with design thinking, user research, and user testing.
- Outlined major learning objectives, and produced comprehensive design documentation. 100% of testers believed this app had potential as a competitor.

Dot – Lead UI Designer, UX Researcher

February 2021

- Led research and design of an original app concept catered towards those who need to track their menstrual cycles.
- Implemented research findings on the cycle and outlined major learning objectives. User tested and iterated for feedback.

MyFitnessPal Redesign – Lead UX & UI Designer

January 2021

- Redesigned the MyFitnessPal app to have a more modernized, sleek appearance and improved user experience.
- Studied the app design using heuristic evaluation. Utilized color palettes and created hi-fidelity mockups that improved user experience. Documented A/B comparisons and reflections.

Mentorship

ADPList

Spring 2021 - present

Communicated and received mentoring from various UX Designers and Researchers.

Volunteer Experience

Big Design Conference

Fall 2020

Volunteered for the Big Design conference as a member of the UX Club.
